

Foliorum

User guide

This software is used for spirit communication. It's very easy to use. Ask the spirit a question, then simply click on the 'New image' button and Foliorum will produce an image.

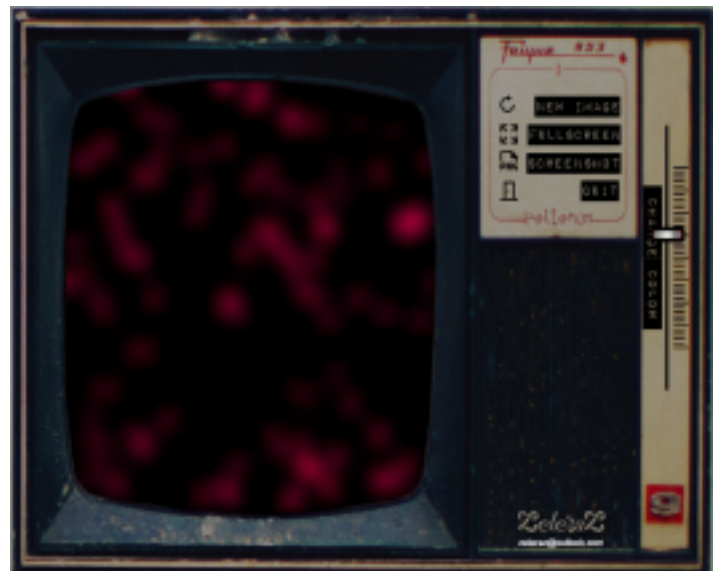

After that everything depends upon your interpretation of the image. Look for symbols, signs, letters or numbers. You can repeat this as many times as you want. You can change the color of the image at any time. You can also take a screenshot (they end up in the 'saves' folder located in the same place as the Foliorum.exe).

I have included a dictionary of symbols traditionally used in Tasseography to help you get started, but don't rely too much on that dictionary. When you connect with a spirit you won't need a dictionary, you'll know instinctively what the spirit wants to communicate and what the symbols mean to you.

Remember to use your imagination.

As a side note: You can use Foliorum together with the Tasseography dictionary not only for spirit communication, but also for fortune telling. So have fun with it!
